The Calgary Highlanders Training Calendar 2014-2015

SITUATION:

41 CBG Comd's Intent. 41 CBG will continue to recruit, train, develop and retain skilled and motivated soldiers to participate on any domestic or international task. This multi-year plan is an evolving document which will provide predictability for unit planning while serving as a guide to 41 CBG out-year objectives. Comd 41 CBG expects units to be innovative, resourceful, and focused in their planning, especially in applying the lessons learned from prior events to serve as gateways to long-term end states. The overarching consideration is that the Brigade efforts will support 3rd Cdn Div priorities and objectives.

THE CALGARY HIGHLANDERS

MISSION. The Calgary Highlanders will produce robust infantry platoons in a company context by providing innovative training geared to challenging our soldiers to support 41 CBG efforts to recruit, train, develop and retain high quality soldiers for domestic or international operations.

EXECUTION.

Concept of Operations.

Intent. I intend to continue focusing on unit effective growth. First by leveraging our ties to the community and extended regimental family to aggressively recruit. Second by retaining our current soldiers through challenging training delivered in a progressive manner and following a predictable and stable schedule.

Scheme of Manoeuvre. The Calgary Highlanders will continue to build our capability to plan and conduct operations. We will focus on creating sound and balanced teams at the platoon and company level.

Phase 1: Individual and IBTS Training - April - October 2014: Unit training will focus on IBTS and individual training including a Battle School administered, unit run, Weapons Detachment Member course. During this phase we will focus our efforts on preparing unit members to fill individual augmentation tasks and achieved prerequisites for courses that support the themes of move, shoot, communicate. This phase includes efforts to support TBG confirmation at Level 6 and Ex Belligerent Grizzly, the Brigade collective training exercise in August.

Phase 2: Unit Collective Training – November 2014 – January 2015: This period will focus on building the unit's ability to operate as dismounted light infantry. This phase aims to build collective section skills in a platoon context in preparation for the next phase.

Phase 3: Platoon Validation – February – April 2015: This phase will be the culmination of the training year and will see platoons validated in a company context. This phase will challenge leaders to integrate their elements in a company context which will add complexity and enhanced training opportunities.

Core Themes: Successful infantry units train teams to effectively move, shoot, and communicate. All collective training conducted by the Calgary Highlanders will build these themes. Additionally, The Calgary Highlanders will target specific individual training opportunities to build the units capacity in these themes. Further explanation of move, shoot, communicate is provided below with expected behaviours and courses that will be pursued by the unit to reinforce these themes:

Move: The ability to manoeuvre and exploit opportunity to gain the initiative:

Expected Behaviours for Move:

- Physical Fitness;
- Training in complex terrain and unique environments;
- Viable sustainment concept;
- Unarmed Combat training.

Courses to Reinforce Move:

- Driver qualifications;
- Basic Winter Warfare courses
- Basic Mountain Operations Instructors;
- Complex Terrain Instructors;
- Advance Mountain Operations Instructor;
- Light Over Snow Vehicle;
- Urban Operations Instructors;
- Chemical, Biological, Radiological and Nuclear Defence courses.

Shoot: The ability to employ weapons systems or other enablers to affect the battle field:

Expected Behaviours for Shoot:

- Weapons Handling;
- Marksmanship Training.

Courses to Reinforce Shoot:

- DP2A – Weapons Detachment Member Qualifications;
- SAT Operators Courses;
- Advance Small Arms; and
- Field Firing Qualifications.

Communicate: The ability to pass information and coordinate activities:

Expected Behaviours for Communicate:

- Battle Procedure;
- Unit Fan Outs; and
- Effective Administration.

Courses that Reinforce Communicate:

- Leadership development courses for all rank levels;
- Unit Public Affairs Representative training; and
- Army Tactical Communications Systems qualifications.

Center of Gravity: The Center of Gravity is a characteristic, capability, or influence from which a unit draws its freedom of action, physical strength, cohesion or will to fight. The Calgary Highlander's Center of Gravity is our Leadership Capacity. We will continue to develop this capacity as it provides our greatest flexibility and will continue to provide strength to the unit.

Risk Tolerance: I am willing to limit the scope of unit collective training in favour of supporting the battle school or ensuring the availability of unit leaders attend appropriate individual training to support career progression. These two avenues are vital ground to grow the brigade's capacity and ensure overall health of the unit.

Main Effort. The main effort is ensuring the overall health of the unit by balancing growth and retention. This will be achieved by focusing on the battle school and managing the scope of collective training if required.

End State. The end state will see The Calgary Highlanders poised to participate on Division or Brigade driven collective training or prepared to support domestic operations.
